

# CONTAGIOUS BARKING

## SAMPLE SCRIPT

Much like the “Barking Like a Dog” sample script, this script can also be adjusted to conform to another animal noise or routine idea. This is a subtle but creative follow-up routine audiences enjoy.

“What’s weird is I’m going to ask you one more question and how you answer is going to become contagious to others. When they hear how you respond to this question, they themselves will naturally adopt your form of communication and use it to interact with you, myself and others.”
