

# BASIC HYPNOSIS

## SAMPLE MISTAKE

In case you didn't catch it, I made a silly mistake in my Basic Hypnosis Demo. I said, "...when I snap my ears in your left ear..." which makes zero sense (and I found hilarious).

As I'll touch upon in the next module, don't take yourself too serious when hypnotizing people. Have fun with the process and sharing the experience with someone. The most important thing to note about this mistake...I PERSISTED! As stated in Module 1, it doesn't matter if you experience a performance hiccup...PERSIST! As long as you push through as if nothing happened, as my Basic Hypnosis Demo proves, you can still easily provide someone with a great first-time experience :)
