

P.S.

Please note, I don't typically refer to myself as a Hypnotherapist anymore. In fact, my actual certification labels me as a [Certified Advanced Hypnotist](#). For the purpose of this training, I simply spoke that way so you understood you could provide basic therapy-focused help to those coming to you for it.

HypnoKick does not offer a hypnotherapy certification program at the time of this training's release & does not advise any students taking this training to claim to be trained/ certified/ professional Hypnotherapists.

Simply calling yourself a Hypnotist will suffice for hosting comedy hypnosis or basic hypnotherapy via virtual hypnosis.
